PROFESSIONAL SUMMARY

Senior Security Operations Analyst with over 7 years of combined IT and Cybersecurity experience, specializing in threat detection engineering, SIEM/EDR management, and automated incident response. Proven track record of technical leadership, having mentored and trained 10+ junior analysts to mid-tier proficiency through structured shadow sessions and hands-on skill development. Expert in authoring custom threat hunting queries using KQL and CrowdStrike LogScale CQL, optimizing detection rule logic, and driving Cloud Security Posture Management (CSPM) across AWS and Azure environments. Certified Blue Team Level 1 (Gold) professional skilled in building automated SOC playbooks, integrating threat intelligence via APIs, and executing high-fidelity alert tuning to bridge Security Operations and Security Engineering.

SKILLS

- **Threat Detection & Engineering:** Detection Rule Tuning, SIEM Engineering, Threat Hunting, Correlation Logic, Alert Suppression, Playbook Automation
- **Technical Leadership & Operations:** Team Training & Mentorship, SOC Onboarding, Alert Triage, Incident Response (IR), Root Cause Analysis, SOP Development
- **Security Tooling & Platforms:** Microsoft Sentinel, CrowdStrike Falcon, RedCanary, Microsoft Defender for Endpoint (MDE), Wiz, Aqua Security, Meraki, Palo Alto Panorama, Intune, SCCM
- **Languages & Querying:** LogScale CQL, KQL (Kusto Query Language), Python, RESTful API Integration
- **Cloud & Infrastructure Security:** AWS, Azure, CSPM, Windows Enterprise Architecture, MFA/IAM, Network Security

PROFESSIONAL EXPERIENCE

Kaseya | Miami, FL & Dallas, TX

Sr. Security Operations Analyst | September 2026 – Present
Security Operations Analyst | September 2022 – August 2026

- Promoted to Senior Analyst to lead threat detection tuning, advanced triage escalations, and cross-functional security engineering initiatives across global environments.
- Mentored and trained 10+ junior security analysts through structured shadowing, technical training sessions, and targeted career pathing, accelerating their progression to mid-tier operational proficiency.
- Engineered and refined SIEM and EDR/XDR detection rules within Microsoft Sentinel and CrowdStrike Falcon, reducing false-positive alert volume and improving signal-to-noise ratio.
- Executed proactive threat hunting campaigns across multi-cloud and hybrid endpoints

utilizing custom KQL and LogScale CQL queries to identify emerging threat vectors and malicious activity.
- Designed and maintained automated SOC response playbooks and Standard Operating Procedures (SOPs) to streamline incident triage, investigation, and escalation workflows.
- Conducted cloud vulnerability and misconfiguration audits using CSPM tools (Wiz and Aqua Security), delivering actionable remediation pathways to harden AWS and Azure workloads.
- Performed deep-dive root cause analysis on high-severity phishing, malware, and credential harvesting campaigns across enterprise endpoints and email gateways.
- Validated security impact of externally reported vulnerabilities, collaborating with infrastructure and engineering teams to coordinate patch deployment and remediation tracking.
- Correlated network firewall logs across Cisco Meraki and Palo Alto Panorama to isolate compromised hosts and block malicious external IPs.

WorkSafeBC | Richmond, BC

Support Technician & Analyst | September 2020 – August 2022
- Administered endpoint security configurations, access controls, and Multi-Factor Authentication (MFA) protocols across enterprise systems under strict SLAs.
- Utilized System Center Configuration Manager (SCCM) and Intune for endpoint onboarding, automated patch management, and asset security tracking.
- Authored detailed technical KB articles and troubleshooting guides to standardize Tier 2 incident resolution and access request management.

Microserve & Lionbridge | Vancouver, BC

IT Support Analyst & Technician | February 2019 – September 2020
- Managed endpoint deployment, user access management, and hardware troubleshooting in enterprise client environments.

CERTIFICATIONS

- **Blue Team Level 1 (BTL1) – Gold Certified** | Security Operations & Incident Response (2023)
- **Google Cloud Fundamentals & Networking** | Google Cloud Platform
- **HDI Support Center Analyst** | HDI

EDUCATION

- **Master of Science in Information, Network, and Computer Security** | New York Institute of Technology (NYIT)
- **Bachelor of Engineering in Electronics & Communication** | Mahatma Gandhi Institute of Technical Education & Research (MGITER)
